## Welcome

Dear Doctor & Staff Members,

The entire team at MATT Orthodontics would like to extend a warm and sincere thank you for being our valued customer. Our team realizes that our success depends on your support and satisfaction regarding our products and services. As such, we are committed to maintaining a reputation of excellence driven by our vision of growth and commitment to producing innovative products that you'll love.

With your support, we've experienced tremendous growth. Since the launch of our first product, the Matt-GEMMA™ Series Buccal Tubes, we have sold over 5 million buccal tubes worldwide.

Our catalog offers an array of new products, all of which are inspired or designed by valued customers, leading clinicians, educators, and respected institutions from around the world. Together, we'll continue to innovate, strive for perfection and efficiency, and produce new products that positively impact our industry and the world.

Team **MATT**Ortho

A handwritten signature in white ink, appearing to be "John", located in the bottom right corner of the page.

the original  
**Matt-GEMMA™**  
Series Buccal Tubes

Hand inspected  
and hand delivered.

Before packaging, each GEMMA™ tube undergoes a thorough inspection that begins with a series of machines and is followed up by human inspection.

Only tubes that pass rigorous tests and meet our standards proceed to be hand-marked and hand-packaged into our elegant and ergonomic casing.

To some, this process may seem extreme.

To us, it's necessary because every detail matters.

™ FIRST MOLAR KIT  
X  
CONVERTIBLE

LOT: 1015PA

THIS PRODUCT MAY CONTAIN  
LUMEN DIRECT PATIENT TO  
ALLERGIC REACTION

**5,133,250**  
tubes sold  
and counting

**LOW-PROFILE AND ROUNDED BALL HOOKS**

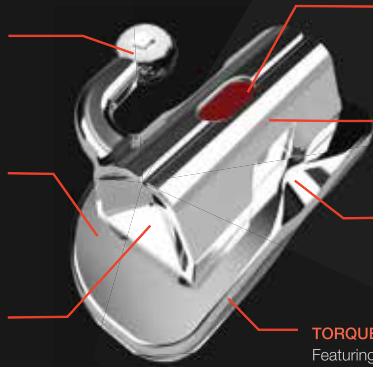

Enhances patient comfort and avoids gingival impingement

**COMPOUND CONTOUR POWERBASE™**

Provides the ideal bracket fit to tooth surface for increased bond strength and precise placement

**FULL FUNNELED ENTRY**

Helps guide wire into the buccal tubes

**BRACKET BRACKET I.D.**

Quadrant-based identification system with removable color-coded marks

**PRECISION METAL INJECTION MOLDED STRUCTURE**

For unparalleled buccal tube body strength

**PRECISION-ENHANCING PRONOUNCED GROOVE**

Increases bonding accuracy and provides the ideal anatomically formed fit to tooth

**TORQUE-IN-BASE DESIGN**

Featuring an 80 gauge foil mesh base

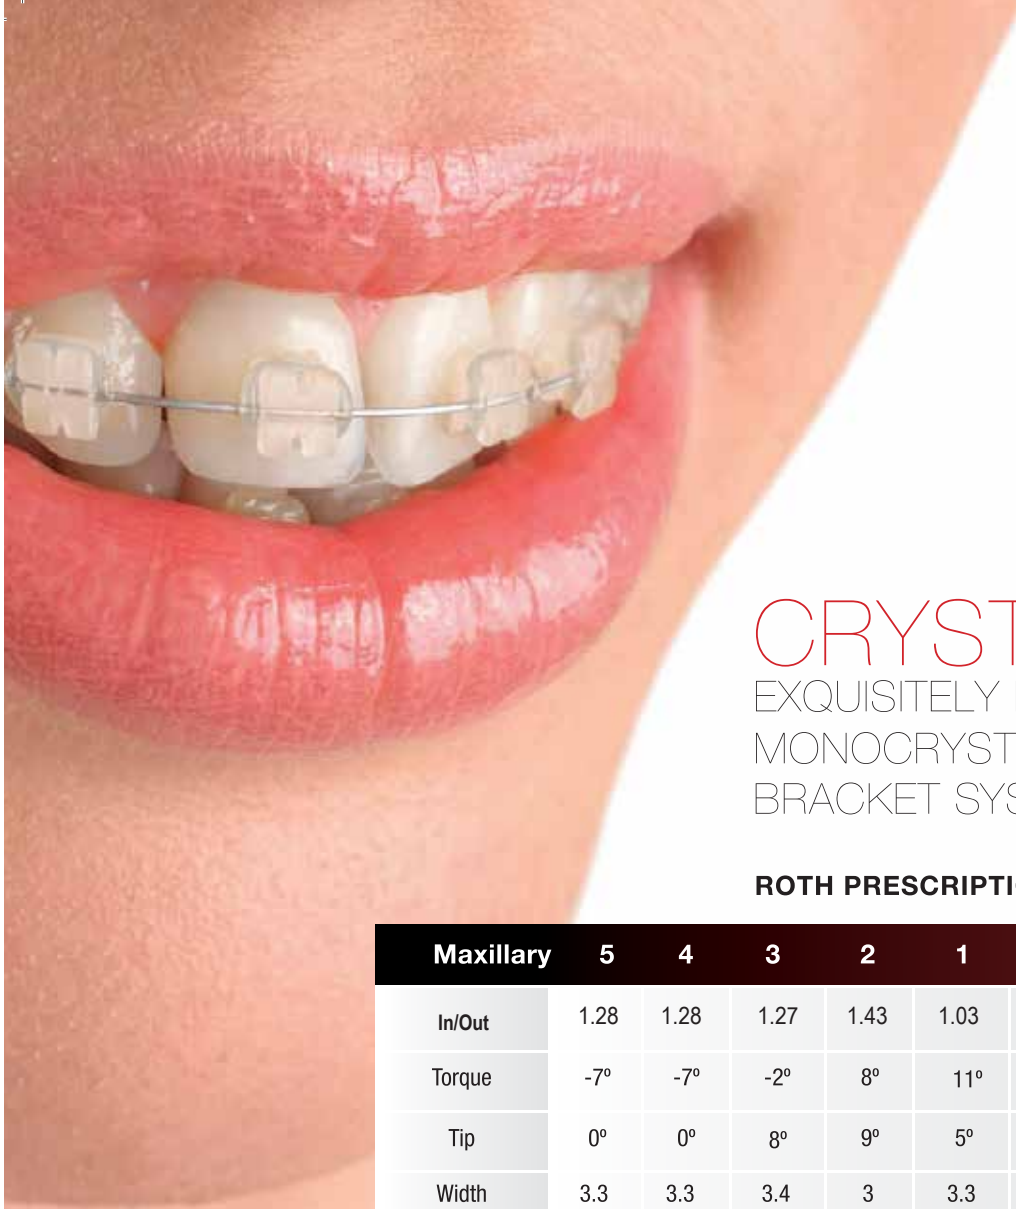

25+ years  
of research and expertise

# ATTACHMENTS

## PARVUS™

### Auxiliary Crimpable Ball Hooks

These Crimpable Ball Hooks effortlessly crimp onto archwires for precise placement inside or outside of the mouth. Slide-resistant locks keep them firmly in place during treatment. The ball hook can be bent for right or left applications. Fits round or rectangular wire up to .018" x .025".

Short (Round) 0.021	12 pc/pack	PBH-10
Short (Rectangular) 0.021x0.025	12 pc/pack	PBH-12

## DOT™

### Lingual Button

This button's mini size allows bonding in hard-to-access areas while also ensuring patient comfort. Features Grip-Lok base for greater bond strength.

Round Base (Bondable)	12 pc/pack	DLB-10
Round Base (Weldable)	12 pc/pack	DLB-12

## DOT-X™

### Curved-Base Lingual Button

Same head as regular Lingual Button but on a curved base that adapts more easily to bicuspid and molar bands.

Rectangular Smooth Base 3.4mm (Weldable)	12 pc/pack	DLB-14
Rectangular Smooth Base 3.8mm (Weldable)	12 pc/pack	DLB-16
Rectangular Smooth Base 4.2mm (Weldable)	12 pc/pack	DLB-18

## PARVUS™

### Crimpable Implant Hooks L+R

Easily and securely attach a Closed Coil Spring or other auxiliary attachment. Also excellent for use with miniscrew attachment. Implant hooks can be placed onto archwires inside or outside of the mouth. Size 7.8 mm. Fits archwires up to .022" X .025".

Standard (Rectangular) 0.021x0.025	12 pc/Pack	PIH12
------------------------------------	------------	-------

## PARVUS™

### Crimpable Stop

This metal injection molded Crimpable Stop may be used anywhere on an archwire to limit tooth movement or to maintain correct wire positioning. Fits round or rectangular wire up to .02111 x .02511.

(Round) 0.021	12 pc/pack	PCS-10
(Rectangular) 0.021x0.025	12 pc/pack	PCS-12

## DOT™

### Lingual Sheath With Hook (L+R)

This Lingual Sheath offers maximum patient comfort and ease of use.

Rectangular Smooth Base	12 pc/pack	DLS-12
-------------------------	------------	--------

## DOT™

### Lingual Sheath

Lingual sheaths are designed to accept palatal bars, quad helix appliances, and other maxillary and mandibular removable format appliances.

Rectangular Smooth Base (Weldable)	12 pc/pack	DLS-10
------------------------------------	------------	--------

## DOT™

### Golden Eyelet with Chain

A great addition to a popular favorite, our eyelet is now available with a 1" length. Chain is strong and can be used full length or trimmed as needed. The chain links are big enough to thread elastics through to provide traction in the desired direction to expose impacted teeth.

Round Base	6 pc/pack	DGC-12
------------	-----------	--------

## DOT™

### Lingual Cleat

BONDABLE \ WELDABLE

These Lingual Cleats can assist in band seating and allow the use of elastics for more control.

Round Base (Bondable)	12 pc/pack	DLC-10
Rectangular Smooth Base (Weldable)	12 pc/pack	DLC-12

## DOT™

### Lingual Bite Turbos A

Lingual Retainer Bonding splints mainly applied to maintain the effect after the orthodontic treatment

Round Base (Bondable)	10 pc/pack	DLR- 10
Round Base (Weldable)	10 pc/pack	DLR- 12

## DOT™

### Lingual Bite Turbos B

These Bite Turbos can be placed on the lingual of upper or lower anteriors.

(Bondable)	10 pc/pack	DBT-01
